

Carlin Will

310.303.4376
carliwill@berkeley.edu

Education

University of California, Berkeley
Undergraduate Student in Astrophysics

Aug. 2020 – Present
Current GPA: 3.825

Research Experience

N-Body Gravitational Animated Simulations
Python Model of an N-Body system with 2D and 3D animated representations
Athena ++ Kelvin-Helmholtz Simulation
Animated representation of Kelvin-Helmholz Instability in Fluid Dynamics

March 2021 – April 2021
Berkeley, CA
May 2021 – Present
Berkeley, CA

Research Interests

I am interested in studying several branches of theoretical astrophysics, including subjects such as galaxy formation and evolution. I am also drawn to optical astronomy, but lean toward research that involves mathematical and visual modeling.

Technical Skills, Language Skills, and Interests

OS: Windows, Linux
Programming Languages: PYTHON, LaTeX, HTML
Libraries: SciPy, NumPy, Matplotlib
Languages: English (native), Spanish (limited working proficiency)
Interests: Graphic Design, Writing
